

## Thankful Book Instructions

Hi Parents, This week we will be putting together a special, "I Am Thankful" book. We will make a page a day. All the pages can be downloaded but if you happen to have cardstock or construction paper, it might last longer and be more durable if you add the crafts to the cardstock or construction paper. If I was in the classroom, I would just have the students glue the pieces on the hat and I would attach it to the paper but I did give the children directions to add them to the paper. They will need some scrap paper. I would download all the pages at one time because I combined some items to save paper. Pages 5, 6 and 7 are just colored black pages if you opt to adhere the crafts to those pages. Here is what each of the pages will look like when complete.
